

# Certificate of REACH Compliance

2015-11-09

The products of INELCO are in compliance with European Union Directive 1907/2006 on the Registration Evaluation Authorization and Restriction of Chemicals (REACH).

Based on information provided by our suppliers, INELCO designates its products as REACH compliant for orders based on or after the date of this certification.

REACH compliant means, that regarding the Substances of Very High Concern (SVHC) candidate list recently released by the European Chemicals Agency on October 28, 2008, INELCO's products do not contain more than 0.1% by weight per article of any substance on the SVHC candidate list.

We will continue to monitor the status of the candidate list as part of our on-going compliance activities, including the possible need under Article 33 of REACH to inform product recipients and consumers if an article contains more than 0.1% by weight per article of any substance that is added to the SVHC candidate list in the future.
