INELCO®
THE DISTINCTION

insilco
modcon®- modular single- & multipart jacks
- THR or SMT
- board mount or card edge
- vertical, top or angled entry
- shielded or unshielded
- from 4 to 10 Positions
- from 2 to 10 Contacts
- Gold plating 50µ" to flash
- optional LEDs

modcon® - modular plugs
- shielded or unshielded
- short or long body
- solid or stranded wire
- from 4 to 10 Positions
- from 2 to 10 Contacts
- Gold plating 50µ" to flash
- clear and colored body
- various colored hoods
- full range of assembly tooling

modcon®-premium plugs
CAT6A premium plug series to be used for industrial and high-speed data environments.
- shielded
- solid or stranded wire
- 8 Positions with 4 or 8 Contacts
- Gold plating 30µ" or 50µ"
- full range of assembly tooling

modcon®- industrial mod jacks
forward developed housing and contacts for harsh environment and maximum contact reliability.
- THT or SMT
- side or top entry
- shielded
- 8 Positions 8 Contacts
- Gold plating 30µ" or 50µ"
- optional magnetics and LED's

intrajack® Integrated LAN Transformer Modules
for isolation, matching impedances and filtering enclosed within standardized single- and multi-port RJ45 connectors for 10/100 BaseT/ Gigabit BaseT/ 10Giga Base-T and PoE / PoE+ and with optional LEDs
discom® discrete components

Telecom and LAN transformers for matching impedances and filtering.

Common Mode Chokes to provide high impedance against common mode signals while allowing differential mode signals to pass through.

compu-shield®
i/o connectors like USB, HDMI and SFP (Small Form-factor Pluggable) compliant with MSA (Multi-Source Agreement):
- 20 position SMT connector
- cages in press-fit
- single- and multiport
- optional light pipes

voice series®
easy to assemble terminal connections for telecom and high speed LAN applications. punch down blocks (IDC insulation-displacement connectors). screw terminals (wire clamped down to metal by a screw).
various wire crimp terminals. LSA insulation-displacement blocks incl. accessories

circon®
cost-effective custom made and developed connector solutions with long-term reliability.
Services:
- design
- tooling
- assembly
- manufacturing
- packaging

insilco®
providing a comprehensive range of capabilities for value-added services for INELCO's markets such as:
- shielding
- over-molding
- sub-assembling
- tooling
- prototyping
- procurement
